

The New Berry Brochure

Dear Managers,

Recently I published a beautiful new tourist brochure for the township of Berry. It advertises a great selection of Berry businesses with a location map and contains information on wining, dining, where to stay and things to do in and around town.

Distribution of the brochure to accommodation outlets, cafes, visitor centres, and other high traffic visitor outlets along the South Coast and beyond has already proven to be very popular with south coast visitors this summer.

I personally distribute these brochures to over 200 outlets every month to ensure they are always prominently on display. Another 150 local accommodation outlets receive them by mail when required.

If you would like some of these brochures to display on your front counter or to give to your customers, either contact me direct on mobile 0410 400 297 or by email on offtherack@hotmail.net.au, or you can collect brochures from Jean Sorensen at Berry Shoes & Accessories.

To compliment the brochure, a beautiful new website designed by Bj2design has recently been launched. The website is modern and fresh just like the brochure. For a sneak peek go to www.berrybeautiful.com.au.

Should you wish to advertise in the next brochure publication, please contact me by phone or email. Spaces are limited so your early response and deposit will secure your ad. Early birds are rewarded with discounted rates. Brochure and website advertising packages are also available.

*Kind regards,
Your local brochure buddy...*
